- **Figma** for prototyping, animation, and organizing assets
- **Adobe Illustrator** for vector graphics/illustration
- **After Effects** for motion graphics
- **Blender/Maya** for 3D modeling, UV mapping, and mesh optimization for realtime systems

## Professional Experience

### UX/UI Designer

NorthWest Fruit

April 2022- present

Mount Vernon, WA, USA; Remote

- Restructured IA and visuals for increased clarity and visual hierarchy, with the goal of making potential volunteers feel more comfortable starting the onboarding process
- Designed a member portal based on the existing needs of present members and perceived needs of future members, with the goal of increasing member involvement over time
- Implemented volunteer-friendly systems for site maintenance and updates, as those updating the site in the future may not always be experienced in web development

### UX Design Generalist

Raft - CareerFoundry UX Immersion Project

February - May 2022

Berlin, Germany; Remote

- Designed a responsive web app from ideation to handoff with the goal of testing and improving my UX design skills
- Made 3 evidence-based prototype iterations, each performing better than the last.
- View Project here:[behance.net/gallery/145184633/Raft-the-app-for-Floridas-beaches](https://www.behance.net/gallery/145184633/Raft-the-app-for-Floridas-beaches)

### Concept Artist

Carter Kaye Engineering

February - March 2020

Winter Haven, FL, USA; Hybrid

- Created renderings of a curbside cafe in downtown WinterHaven according to the visions of leading engineers, resulting in the Mayor's approval to begin the project

## Education

### UX Design Bootcamp

CareerFoundry

January - July 2022

Berlin, Germany; Remote

- An intensive, project-based online training program with a focus on core UX skills
- A project-based specialization in front-end web development

### B.S. Administration; Digital Media Focus

University of Central Florida

Graduated April 2021

Orlando, FL, USA

- A Bachelors of Science in Health Services Administration covering topics such as business strategy, healthcare laws, and team management
- A minor in digital media covering a wide variety of topics, including front end web development, Unity game development, and 3d modeling
